

Dear Dean & Team,

I wanted to take a moment to say Thanks for a good job on our pool. We are very pleased with the style & the workmanship. The electrical inspector noted the high quality equipment, safe design, and the good installation practices.

Please pass along to your field & office team our thanks. You should also include in your marketing presentations that a new pool is good for getting the kids good & tired so they go to bed without a fight..... Put us on your reference list for potential customers —

Regards

Steve & Suzi Holdaway
